

LabelMax35

Custom Built to Meet Your Needs

The LabelMax35 Labeler is an economically priced pressure sensitive label applicator ideal for production rates of up to 35 containers per minute.

The computerized controls are extraordinarily dependable and simple to use, allowing the operator to seamlessly match application speeds to pre-set conveyor speeds. Optical sensors ensure smooth and trouble-free labeling, accommodating a wide variety of beverage, supplement, and pharmaceutical container sizes. The units' compact size and user-friendly design make it ideal for tight spaces and frequent changeovers.

The LabelMax35 smart technology allows an operator to perform additional tasks while applying labels. Shown above as an in-line unit with the optional stainless-steel table and mobile wheel options, this labeler offers many configurations to maximize production and minimize cost.

Your Complete Package

The LabelMax35 simplifies your packaging day as a highly demanded addition to Norland's complete packaging portfolio. Ask your representative for solutions for container feeding, filling, date coding, and more.

**Label up to 35
Units per Minute**
