

# Vapor Compression Distiller

## Custom Built to Meet Your Needs

Purify your water by distillation. These water purification systems provide up to 6,000 GPD of quality distilled water, removing up to 99.9% of possible contaminants. VC Distillers are designed for maximum operating efficiency with low energy use. These systems also produce far less reject water than other distilling equipment.

## Your Complete Package

Vapor Compression Distillers are essential to your bottled water plant. In addition to a comprehensive spare parts inventory, you'll receive superior customer support from our team right here in Lincoln, Nebraska, with any Norland purchase.
